

Twino 600mm Access Cover Class D400

High performance Class D400 Hinged Access Cover system.
Available in standard, locking or vented options.

TECHNICAL GUIDE: **CG2.2**

Applications

Low to medium density
traffic environments

Stormwater Networks

Wastewater Networks

Product Attributes

Snap locking with two parallel flexible
torsion spring bars

Non rock stability through
polyethylene cushioning insert fixed
to the frame

5 guides on ribs ensure the cover is
positioned centrally within the frame,
with no lateral movement

Approvals/Standards

Tested in France in accordance
with EN124

AFNOR CERTIFICATION to class D400

Quality

ISO 9001:2008 Quality Management

High Spec Access Cover, offering maximum safe access to secure networks.

Features

- Rated to Class D400 to EN124 – exceeds HN-HO-72 Transit Load requirement
- Snap locking with two parallel torsion spring bars
- Non rock stability through polyethylene cushioning insert fixed to the frame
- 5 guides on ribs ensure the cover is positioned centrally within the frame, with no lateral movement
- Cover locks open at 90 degrees preventing accidental closure
- Three options available – standard, locking (through addition of locking kit) and vented (with mudpan to catch road grit), the vented option allows released gases/air from air valves etc to escape without removal of cover
- Multi purpose keyway allows for opening with pick or bar – no special tools required
- Locking key required when using lockable cover

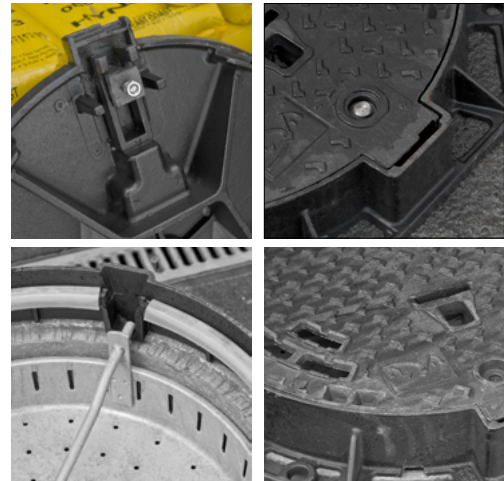

Accessories

- Personalisation available – council logo etc
- Captive hinge – before product installation insert a 12 x 180mm pin

Testing

- Tested in France in accordance with EN124
- The NF Mark certifies conformity by the authorising body AFNOR CERTIFICATION
