

Septic Tank Filters

A high performance wastewater filter ideal for septic tank or treatment systems.

TECHNICAL GUIDE: **TA7.1**

Applications

Domestic or commercial

Septic Tanks

Treatment Systems

Grease Traps

Product Attributes

Screens 90% of solids

Reduces tank surge

Lowers BOD5

Lifetime Guarantee

Taylex Effluent Filters prevent excess solids from entering the pipe network.

Application

High performance Taylex effluent filters for septic tanks or trade waste systems. The filter assists in removal of excess solids, grease, fat, lint and hair from waste water generated by a domestic household, factory, restaurant, food preparation, laundromats, schools, retirement homes etc.

Installation

In a new tank or retro-fit to an existing tank.

Service & maintenance

Simply lift, remove, clean and replace the filter or re-usable cartridge.

Features

Better Protection

- Surge protection from modern appliances. Filters up to 90% solid reduction.

Proven Effective

- 30 years of successful performance

Prevents

- High surge loads being discharged rapidly.
Sewer and mains blockages
High discharge licence fees
Overload to sewage treatment systems

Saves

- Tank pump out frequency & reduced sewer acceptance charges
- Maintenance to sewer mains
- Expense in grease trap maintenance

Testing

Flow Rate

- 10,000 litres per day
- Fits 100mm sewer pipe

Performance

Reduces biological oxygen demand – up to 70%
Suspends solids – up to 90%
Oil and grease – up to 90%
