

Technical Support Sheet

Ductile Iron Manhole Lid Lifter Bar

Lid Lifter for use with Hinged Ductile Iron access covers: Maestro, Twino and Maximo from Hygrade Water, and Korum, Pamrex, Rexel and Pamtight from St Gobain.

The Lid Lifter Bar has a Tempered Steel hexagonal shaft that has a D Handle, and the Hook is at 90°

TRUE TEMPER® Lid Lifter Bar – Simple, Strong and Effective

Step 1

Operation of this lifter is relatively straight forward.

The Hook is positioned to 'pop' the torsion spring bars by pulling the bar towards you.

Hook positioned in space between cover and frame opposite hinge

Step 2

The Lid Lifter Bar is then repositioned in to the flat keyhole opening, in a reversed position, with the hook facing down vertically, and the Bar towards you.

Once 'popped' the bar is then repositioned and the cover lifted

Disclaimer: While every effort has been made to ensure that the information in this document is correct and accurate, users of Hygrade Water product or information within this document must make their own assessment of suitability for their particular application. Product dimensions are nominal only, and should be verified if critical to a particular installation. No warranty is either expressed, implied, or statutory made by Hygrade Water unless expressly stated in any sale and purchase agreement entered into between Hygrade Water and the user.

Step 3

Lift the Bar in this position and the cover will open easily.

In this position the cover is able to lock in place, and the Lid Lifter Bar can be removed

Availability

The Lid Lifter Bar is available from merchants under the code:

LIDLIFTUDI DI MH LID LIFTER BAR
